

Baird Medical Highlights Participation at CIRSE 2026 and Showcases Microwave Ablation Technology

September 14, 2026

Company Engaged with Interventional Radiology Community at Leading Global Congress in Copenhagen

COPENHAGEN, Denmark, Sept. 14, 2026 (GLOBE NEWSWIRE) -- Baird Medical Investment Holdings Ltd. ("Baird Medical" or the "Company") (Nasdaq: BDMD), a global medical technology company focused on the development and commercialization of minimally invasive treatment solutions, today highlighted its participation at the Cardiovascular and Interventional Radiological Society of Europe (CIRSE) 2026 Annual Congress, held at the Bella Center Copenhagen.

Throughout the congress, Baird Medical showcased its Microwave Ablation (MWA) System to interventional radiologists and healthcare professionals from around the world, providing an opportunity to engage with the global medical community and demonstrate the Company's technology and approach to minimally invasive ablation.

Baird Medical's MWA System is designed to deliver precise and controlled ablation and features temperature control technology, stable 2.45 GHz microwave energy delivery, and a range of specialized probes designed to support different clinical applications.

"Participating in CIRSE is an important part of Baird Medical's continued engagement with the global medical community and reflects the international reach we have built across our business," said Haimei Wu, Chairwoman and Chief Executive Officer of Baird Medical. "As we continue to strengthen our presence in the U.S. and across global markets, conferences like CIRSE provide valuable opportunities to connect with physicians from around the world, share our technology and deepen the relationships that support the broader adoption of minimally invasive treatment solutions."

Baird Medical's participation at CIRSE 2026 reflects the Company's broader commitment to advancing minimally invasive treatment technologies and strengthening its engagement with physicians and healthcare institutions globally. As the Company continues to expand its presence internationally, most recently in Pakistan, Vietnam, and Argentina, Baird Medical remains focused on providing reliable, precise and versatile technologies designed to support physicians and improve treatment options for patients.

About Baird Medical

Baird Medical is a global, pioneering medical device company specializing in minimally invasive ablation technologies for a range of solid tumors. The Company's lead product, a microwave ablation (MWA) system, is FDA-cleared for soft tissue ablation and is being launched in the U.S. primarily for the treatment of benign thyroid nodules. In addition, the Company is expanding its minimally invasive technology portfolio, including IRE-based products and an AI-powered robotic ablation system.

Baird Medical's MWA solutions have been adopted by a growing number of leading U.S. institutions and private practice groups, including the Mayo Clinic, Columbia University Medical Center, and The George Washington University Hospital. The company is rapidly expanding its global commercial footprint, with sales now reaching markets across multiple continents.

Forward-Looking Statements

This press release includes certain statements that are not historical facts but are forward-looking statements for purposes of the safe harbor provisions under the United States Private Securities Litigation Reform Act of 1995. Forward-looking statements generally relate to future events or Baird Medical's future financial or operating performance. In some cases, you can identify forward-looking statements by terminology such as "may", "could", "should", "expect", "intend", "might", "will", "estimate", "anticipate", "believe", "budget", "forecast", "intend", "plan", "potential", "predict", or "continue", or the negatives of these terms or variations of them or similar terminology. Forward-looking statements are subject to risks, uncertainties, and other factors which could cause actual results to differ materially from those expressed or implied by such forward-looking statements. These forward-looking statements are based upon estimates and assumptions that, while considered reasonable by Baird Medical and its management, are inherently uncertain. New risks and uncertainties may emerge from time to time, and it is not possible to predict all risks and uncertainties. You should not place undue reliance on forward-looking statements in this press release, which speak only as of the date they are made and are qualified in their entirety by reference to the cautionary statements herein. Baird Medical does not undertake any duty to update these forward-looking statements.

Actual results may vary materially from those expressed or implied by forward-looking statements based on a number of factors, including, without limitation: (1) the risk that Baird Medical may not be successful in expanding its business in China or the United States; (2) changes in general economic conditions; (3) regulatory conditions and developments; (4) changes in applicable laws or regulations; (5) the nature, cost and outcome of pending and future litigation and other legal proceedings instituted against Baird Medical or others; and (6) other risks and uncertainties from time to time described in the Registration Statement relating to the Business Combination and the transition report, including those listed under the sections titled "Risk Factors" therein, and in ExcelFin's other filings with the SEC.

The foregoing list of factors is not exclusive. Additional information concerning certain of these, and other risk factors is contained in ExcelFin's most recent filings with the SEC and in the Registration Statement described above filed by Baird Medical in connection with its business combination with ExcelFin. All subsequent written and oral forward-looking statements concerning Baird Medical, the business combination described herein, or other matters attributable to Baird Medical or any person acting on its behalf are expressly qualified in their entirety by the cautionary statements above. Readers are cautioned not to place undue reliance upon any forward-looking statements, which speak only as of the date made. Baird Medical expressly disclaims any obligations or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in its expectations with respect thereto or any change in events, conditions or circumstances on which any statement is based.
